# Webex Audio Support

+ In this article

## Webex Audio Supported Platforms and Services

Webex Audio (hybrid audio) provides flexibility for attendees to join an audio conference using their computer (VoIP) or a phone. There are no meeting-level options to enable or disable this feature; it's available when Webex Audio is available within a Webex meeting.

Features such as muting and unmuting, icons, and active-talker notifications operate identically for attendees. Attendees may transition at any time from using their computer to phone or phone to computer. Attendee status and the mode that they're using to connect to the conference can be seen in the **Participant** list.

Webex Audio (hybrid audio) is supported on the following services and platforms:

Support for Webex Audio (Hybrid Audio)	Windows	Mac OS X	Linux and Solaris	iOS	Android

## Webex Audio Feature Support

Feature	Description	Webex Meetings	Webex Events	Webex Training	Webex Support
<b>Webex Teleconference</b>	<p>Audio options are integrated into online sessions:</p> <ul style="list-style-type: none"> <li><b>Call in-</b> Webex provides a toll or toll-free phone number to call when joining a session (global numbers are also available)</li> <li><b>Call back-</b> When a user joins a session, enter a phone number to be called by Webex</li> </ul>	√	√	√	√
<b>Audio broadcast</b>	One-way audio, for meetings where attendees only listen. A host speaks by using a microphone connected to their computer.		√		
<b>Integrated Voice-over-IP (VoIP) Audio</b>	Instead of using a telephone, use a computer to send the audio over the Internet.	√	√	√	√
<b>Personal Conferencing</b>	<p>Personal Conferencing allows users to start an audio conference and then optionally expand the meeting to include an online meeting, including video conferencing.</p> <p>A Personal Conferencing account can have up to three sets of access numbers (host and attendee access codes). To sign up for a Personal Conferencing account, go to the <b>My Webex</b> tab and select <b>Personal Conferencing</b>.</p>	√			
<b>Other Teleconference Service</b>	Use a third-party teleconference service.	√	√	√	√
